

## **OSHA 10 Hour Construction Safety & Health Course**

**10 hour class over 2 days**

**ABC of Oklahoma Training Facility**

---

This course is intended for all entry level employees and employees that have responsibility for health and safety compliance. The course incorporates OSHA's Outreach Training Program approved curriculum of the 29 CFR 1926 Construction Industry Safety Standards. All attendees will receive 10-Hour Construction Safety and Health Course Completion Cards after successful completion of the program. The classroom instruction will be combined with competency- and performance-based workshops that enable participants to demonstrate proficiency with the acquired skills.
