

Recognizing Excellence in Merit Shop Construction

Now in its 32nd year, the program is designed to recognize and celebrate the outstanding achievements of ABC of Oklahoma general and specialty contractors. Your company has the opportunity to compete for honors in the commercial construction industry's premier annual awards program – the ABC of Oklahoma Excellence in Construction Awards competition – recognizing the outstanding construction projects of the year.

All award winners will be recognized at the Thursday, October 25th awards celebration at the Cox Business Center Ballroom (formerly Tulsa Convention Center). The ceremony will feature a multi-media presentation highlighting the Eagle award winners, and a printed program highlighting each award-winning project. All winners will be recognized in a special edition of The Advantage newsletter, on the ABC of Oklahoma website and a news release for Eagle Award winners will be distributed to local media outlets.

All chapter winners will automatically be qualified to enter the ABC National Excellence in Construction awards program where the winning projects will be honored at the association's National Awards celebration in March 2019 in Long Beach, California.

Purpose:

The Associated Builders and Contractors of Oklahoma Excellence in Construction Awards are designed to recognize and publicize outstanding projects built by members of the association. This recognition will bring about a greater awareness in our area of the quality of work being produced by merit shop contractors. And, by calling attention to the “best of the best”, we hope to continue to raise standards throughout the construction industry.

Eligibility:

Any general contractor or subcontractor member in good standing of Associated Builders & Contractors of Oklahoma may enter. Only projects completed between October 15, 2017 through October 15, 2018 are eligible. The date on the Certificate of Substantial Completion shall determine the project's completion. There is no geographic limitation on the location of any project entered.

Owner's written approval for projects to be entered and judged should be obtained in advance.

Judging:

A panel of judges representing a cross section of the industry will select our winners. Judges will evaluate entries based on the material submitted and will consider factors such as attractiveness of design, complexity, workmanship, innovation, unusual challenges or problems overcome, etc. No contractor member or staff of Associated Builders & Contractors of Oklahoma will participate as judges.

Awards:

Recognition in the form of an “Award of Excellence Eagle” and appropriate publicity will be given to the winning member firm in each category. Winners will be presented their awards at a special Awards Banquet on October 25, 2018. This gala event will feature a visual display of winning projects in each category. Winners in the competition are eligible to enter the National “Excellence in Construction” Awards Competition, sponsored by National Associated Builders and Contractors, Inc.

2018 Associated Builders & Contractors of Oklahoma Excellence in Construction Entry Steps & Requirements

All entries must be received by ABC of Oklahoma by **August 24, 2018**. Entries must be submitted in the three-ring binder with tabs provided by ABC of Oklahoma. There is a total possible score of 100 points, listed are the categories and their point values.

Overall Presentation and Conformance to Entry Requirements *5 points*

1. Official Entry Form, Project Description & Contracted Scope

Complete the Official Entry Form with a 50 word (maximum) paragraph describing what is special about your project that can be used if you are a winner in the EIC Program. The Contracted Scope is up to one full page, ensuring legibility when selecting font design and size. Provide a description of your scope for this project including the following information; type of construction, size of project, contract value, length of project, and percentage of labor that is self-performed. Samples of Contracted Scopes may be viewed online at ABC National's webpage - www.abc.org/eic. *15 points*

2. Narrative

The narrative should include a detailed description of the project, any innovative features, safety record, quality control, scheduling, etc. Responses should include: type of construction; size of project; length of project. What percentage of work is self-performed? Why is this project special? What qualifies it for an award? Description of innovative programs relating to personnel management, quality control, scheduling, value engineering, dollar value, special obstacles overcame; degree of difficulty in completing the project; extenuating circumstances, etc. Maximum two pages, double-spaced. Provide narrative on disk or by email to btaylor@abcokla.org. *Maximum of 30 points*

3. References

Endorsements, third party comments, letters of recommendation from third-parties involved with the project. General contractors should submit letters from at least the owner and the architect. Specialty contractors should submit a letter from at least the general contractor. *Maximum of 5 points*

4. Subcontractors and Suppliers

List ALL Subcontractors and Suppliers involved in the project. Also list ABC Member Professionals supporting the project (bank, insurance, attorney, etc.). Highlight ABC members - enclosed is a listing of current ABC Members for your convenience. *Maximum of 3 points*

5. Safety Questionnaire

Complete the Safety Questionnaire and describe your company's safety program. *Maximum of 3 points*

6. Safety Training & Evaluation Process

If your company is a Safety Training & Evaluation Process (STEP) award recipient include a copy of the most current company certificate or letter. If your company is not a STEP recipient leave this tab empty. Go to <http://www.abc.org/en-us/safety/step.aspx> to find out about this ABC National Program. *2 points*

7. Accredited Quality Contractor

If your company is designated as an ABC Accredited Quality Contractor (AQC), include a copy of the company certificate or renewal letter. If your company is not an AQC recipient leave this tab empty. Go to <http://www.abc.org/en-us/membership/growyourbusiness/accreditedqualitycontractors.aspx> to find out more about this ABC National Program. *2 points*

8. Photos and Artwork

Include Photos (8x10) in print (minimum of 8, maximum of 10). A CD or flash drive with your digital photos saved at a minimum of 300 dpi resolution is required (see Digital Photo Guidelines box on this page) or email photos to btaylor@abcokla.org. The CD or flash drive must be properly labeled and securely fastened. The label should include the company name and project name. Because of the volume of entries anticipated and their potential widespread locations, judges will not visit project sites. Therefore, the photos are very important. The judges decision will be based on the narrative and photos presented with each entry. They must adequately depict the project. Also include camera-ready artwork of the company logo. Disks and photos will be returned after the Awards Banquet. *Maximum of 35 points*

DIGITAL PHOTO GUIDELINES

Photos should be on a CD, flash drive or emailed to btaylor@abcokla.org.

Photos should be saved at 300 dpi resolution, 4"x6" or larger.

Photos should be high-resolution .jpg files.

Photos must **NOT** be submitted with a picture collage or embedded in a software program such as PowerPoint or Acrobat.

Photos must **NOT** include any text or framing.

2018 ABC of Oklahoma Excellence in Construction

AWARD DEADLINES AND DATES

Complete the final application requirements and assemble in the Official Entry Binder. Return the Official Entry Binder by **August 24** to ABC of Oklahoma.

The Excellence in Construction Awards Banquet will be held **October 25** at the Cox Business Center (formerly Tulsa Convention Center), Tulsa, Oklahoma.

TIPS TO BUILD A WINNING EXCELLENCE IN CONSTRUCTION ENTRY

For members who are preparing their entry for this year's competition, below are some tips to achieve a higher score:

The Project Description (50 words) defines the project. This will be used to aid in writing the Project Announcement if your project is a winner. Use this space to tell what's significant about this project.

The Contracted Scope is up to one full page, ensuring legibility when selecting font design and size. Provide a description of your scope for this project including the following information; type of construction, size of project, contract value, length of project, and percentage of labor that is self-performed. This is the first thing the judges read and will be used to aid in writing the Project Announcement if your project is a winner. Use this space to tell what's significant about this project.

Samples of Contracted Scopes may be viewed online at ABC National's webpage - www.abc.org/eic.

The narrative (2 pages) tells the whole story about the project. Worth almost a third of the total point value, the narrative should be the highlight of the application. This is where applicants can brag about why a project is special. Obstacles that were overcome and explanations of extenuating circumstances should be communicated clearly and succinctly. Enlist the project manager and superintendent or other on-site personnel to help write this. Although some projects will be used very philanthropically be sure to tell about the project, not just what the project will be used for.

Safety is a priority. Be sure to include the information requested in this section of the application, but also take the opportunity to describe innovative safety programs that were utilized during the project.

HOW TO SUBMIT THE BEST PHOTOS FOR ABC'S EIC COMPETITION

Photographs are a great way to make a project stand out and are worth almost a third of the total point value. Below are helpful tips for choosing photos in this year's competition.

Let photos tell the story. Remember, the judges can't see the project in person, so it's helpful to provide 'in progress' photos for new construction or 'before and after' photos for restoration and renovation projects.

Include photos (8x10) in print in the binder (minimum of 8, maximum of 10) and the same photos digitally (see Digital Guidelines below). Also include camera-ready artwork of the company logo. Disks and photos will be returned after the awards banquet.

CD or Flashdrive - Be sure it is **SECURELY** fastened – and labeled with company and project name. Note that binders are moved several times, and the disc or flashdrive must be fastened so that it would not fall out if the binder was carried sideways or upside down. Also, the disc or flashdrive is eventually separated from the binder, and must be identifiable.

Safety, safety, safety. Analyze each photo submitted for any possible safety violations. Safety is a priority at ABC, and points will not be awarded for a photo that contains a safety violation. Involve the company's safety expert if necessary when selecting photos.

DIGITAL PHOTO GUIDELINES

Photos should be on a CD, flash drive or emailed to btaylor@abcokla.org.

Photos should be saved at 300 dpi resolution, 4"x6" or larger.

Photos should be high-resolution .jpg files.

Photos must **NOT** be submitted with a picture collage or embedded in a software program (PowerPoint or Adobe).

Photos must **NOT** include any text or framing.

CONTRACTED SCOPE

As San Antonio continues to grab national attention by snaring major corporate relocations and posts a solid economic growth forecast, local developers are finding ways to capitalize on the trend. Corporate relocations coming to San Antonio have selected to take their campuses to the suburbs where their employees live thus reducing their travel time. Developers, like REOC Partners, Ltd., are finding ways to infiltrate the limited travel distance people are willing to go by introducing mixed-use developments like La Arcata.

Middleman Construction Company entered into an agreement with REOC Partners, Ltd. to provide pre-construction, preliminary estimating, project management, and construction services for the La Arcata Development.

The project, situated on a 10 acre site, consisted of a three story office building (100,000 sq.ft.) with a five story parking garage (168,000 sq.ft./ 500 space), two story retail center (92,000 sq.ft.), and two out-parcel retail buildings (25,000 sq.ft.) located across a newly constructed 60' public roadway. The development is tied together by a pair of La Arcata landmarks placed directly on the corner of Tuscany Stone and Loop 1604 and built to resemble an ancient Roman aqueduct system in disrepair but providing a gateway to the development. Construction began in September 2005 and was completed September 2007.

(Aerial view of 10 acre development)

(Section of the 2 story retail center features architectural effects such as stone archways and columns to enhance the Tuscan theme)

To incorporate a Tuscan architectural theme, clay tile roofing, Lampasas sandstone masonry, brick pavers, ornamental railing, EIFS accents, and architectural features such as stone archways and cantera columns were used on the exterior. The interior of the office building has travertine tile floors custom quarried in Spain and handcrafted light fixtures. Also, the office has a state of the art computerized 42" touch-screen directory, mechanical energy management, building automation system, and a controlled-access system to facilitate off-site property management.

(3 story office building features architectural domes, decorative canopies, Vitrocon reflective glass, cast stone and brick veneer)

In conclusion, Middleman's \$20.3 million contract included approximately 20% of self-performed work related to carpentry, concrete, and interior finishes; and 29 ABC members assisted in the project's success. Middleman Construction Company was honored when REOC chose our firm to be a part of their team to create this unique, Class A, Tuscan themed mixed-use development. We are pleased to submit this project for consideration in this year's ABC Excellence in Construction Award program.

2018 Associated Builders & Contractors of Oklahoma Excellence in Construction Official Entry Form

Provide the requested information EXACTLY as it should appear in award-related materials and on the award.

Contractor / Primary Contact Information

Contractor firm entering the project: _____

Contact name for entry: _____

Mailing Address: _____

City: _____ State: _____ Zip: _____

Title: _____

Phone: _____ Fax: _____

Email: _____

Project Information

Name of project: _____

Project location (city/state): _____

Final Contract amount: _____

Award entry category (see list): _____

Project Superintendent: _____

Name of primary architect (firm name): _____

Name of primary engineer (firm name): _____

Name of general contractor (if applying company is a specialty contractor): _____

Name of client/owner (firm name): _____

Starting date of construction: _____

Substantial completion date of construction: _____

Other Project Information

Was this a Design-build project, with design and construction services under one contract with a single point of responsibility? Yes No

Was this a Leadership in Energy and Environmental Design (LEED) project through the U. S. Green Building Council? Yes No

If yes, indicate the level: _____

If you have any questions call (918) 254-8707 or email btaylor@abcokla.org

2018 Associated Builders & Contractors of Oklahoma Excellence in Construction Entry Category

Entry Category Reassignment - ABC reserves the right to change an entry's original category if it determines that a project was entered in the incorrect category or the project's opportunity to win will be enhanced by the change to the new category. ABC also reserves the right to redistribute the contract volume levels within a category.

Projects with members performing as general contractors or construction managers:

Mega-Projects includes all projects more than \$100 million, regardless of type, whether General Contractor or Construction Management.

Commercial includes of-
fice buildings, banks, retail facilities, hotels or mixed use buildings.

Community/Public Service includes projects with substantial resources donated by the contractor, regardless of type, that enhances the community. Entries should include information detailing the donated resources.

Federal Government/Military includes all projects owned by the Federal Government, with the exception of transportation infrastructure and utilities.

Healthcare hospitals, assisted living, nursing homes and other licensed medical facilities.

Historical Restoration covers restoration of buildings that are registered as historical, or are eligible to be registered as historical, on a state or the national registry of historic places.

Industrial category covers manufacturing plants and facilities, refineries and similar types of construction.

Infrastructure-Heavy covers projects streets or highways, dams, bridges and parks.

These include both ground-up construction and tenant finish. Each project may only be entered into one category of completion.

Institutional covers buildings built for colleges, elementary or secondary schools, churches, local government structures; with the exception of healthcare facilities.

Pre-Engineered Building encompasses commercial, industrial and institutional building projects where the primary structure is a pre-engineered metal building. Previous winners include an indoor skating complex, a boat manufacturing plant and an office/warehouse facility. Entries should include information regarding the extent of the project this is pre-engineered (i.e. are there conventional components or portions of the building?) The contractor's role on the project (i.e. supply and erect steel, general contractor or design/builder) and why a pre-engineered building was utilized.

Public Works/Environment covers water treatment plants and sewage treatment plants.

Renovation includes the renovation or restoration of non-historical, existing buildings with more than 50 percent of square footage that has been renovated or restored.

Residential covers single-family homes and multi-family projects and condominiums, including independent living retirement communities.

Other Construction includes construction not specifically referred to in the above, such as theme parks, skate parks, water parks, zoos, and other unique types of projects.

Projects with members performing as specialty contractors:

Community/Public Service includes philanthropic projects, regardless of type, that enhanced the community, using substantial resources donated by the contractor. Entries should include information detailing the donated resources.

Electrical - Commercial systems in a facility built for the benefit of people comfort and occupancy such as: office buildings, hospitals, schools, shopping centers, call centers, multi-family residential, hotels, convention centers, fountain features in a commercial facility, sports arena and stadia, fire or security alarms, parking lots, medical laboratories or renovation in an existing facility.

Electrical - Industrial systems in a facility built for the purpose of facilitating processes or manufacturing. Examples are manufacturing plants, processing plants, clean rooms, data centers, printing and processing centers, airports, animal facilities or electrical renovation in an existing industrial facility.

Exterior includes masonry, precast, stone and all other exterior finishes.

Interior Areas to include but not limited to are as follows: Metal stud and gypsum, Ceiling finishes, Painting and wall coverings, Other wall finishes and flooring. It is our intent to award based on degree of complexity and high end finishes showcasing the abilities

Mechanical - Commercial systems in a facility built for the benefit of people comfort and occupancy such as office buildings, hospitals, schools, shopping centers, call centers, multi-family residential, hotels, convention centers, fountain features in a commercial facility, sports arenas and stadiums, medical laboratories or mechanical renovation in an existing commercial facility.

Mechanical - Industrial systems in a facility built for the purpose of facilitating processes or manufacturing. Examples are manufacturing plants, processing plants, clean rooms, data centers, printing and processing centers, animal facilities or mechanical renovation in an existing industrial facility.

Sitework/Landscape/Hardscape covers interior or exterior landscaping and parking lots.

Other Specialty Construction covers construction not specifically referred to in the above specialty categories, such as roofing, fountain features or artistic scaffolding.

These are categories where members perform Specialty Contracting and are not acting as the general contractor or construction manager.

2018 Associated Builders & Contractors of Oklahoma Excellence in Construction Safety Questionnaire

No project that involves a prime, multi-prime, subcontractor or any trade related work regardless of the type of contract, that has a safety-related fatality, is eligible for an Excellence in Construction Award. If there is a question regarding this application requirement, the applicant should submit to ABC of Oklahoma for confirmation of eligibility prior to submission of a project.

1. Did this project have a safety-related fatality? Yes No

2. Does your company have a written Safety & Health Policy Manual? Yes No
If Yes, provide up to a one-page summary or include a copy of its Table of Contents.

3. Did you develop a site-specific Safety and Health Policy Manual? Yes No
If Yes, provide up to a one-page summary or include a copy of its Table of Contents.

4. Were tool-box safety meetings held with employees? Yes No
Were these meetings documented? Yes No
Frequency of meetings: _____
Include a one page summary or an example up to two pages.

5. Was specialized training conducted on this project? Yes No
If yes, indicate types on a separate page.

6. Indicate number of OSHA-recordable accidents on this project: _____

7. Indicate number of OSHA lost-time accidents on this project: _____

8. Does your company have a written substance abuse policy? Yes No
If yes, provide a copy of the table of contents.

9. Additional information regarding any innovative safety and health programs used on this project or the company's overall safety program may be included.

Information about the person responsible for safety on this project and attesting to these accident rates:

Name: _____ Title: _____

Phone: _____ Email: _____

Signature: _____

2018 Associated Builders & Contractors of Oklahoma Photographer's Use Authorization

If any of photos being submitted were taken by a third-party photographer, the photographer's written authorization to use the photos is required. There are two ways to comply: (1) the photographer can sign and date the licensing agreement included in this document, or (2) applicant must submit a letter from the photographer giving ABC authorization to use the photos, which must follow the licensing agreement in this document. No changes are allowed to this document.

Photographs (This section may be copied to a separate page for ease of gaining signature. No amendments will be accepted.) Photographs submitted with the application have been licensed by the photographer to be used by ABC. Applicant has obtained the signature of any third party photographer to reprint the photographs without limitations.

License to Use: The undersigned photographer hereby grants Associated Builders and Contractors of Oklahoma ("ABC") a non-exclusive license regarding my photographs submitted by applicant in support of its entry in the ABC of Oklahoma Excellence in Construction Awards competition ("EIC Competition"). This license grants ABC an unlimited right to use, reproduce, crop, resize, publicly display, distribute, and transmit electronically including on the internet, my photographs in connection with the EIC Competition including but not limited to the promotion of the EIC Competition and the announcement and promotion of any awards, without payment of any royalty or license or other fee by or from ABC or applicant or agent or other representative of ABC or applicant.

Photographer's Name (signature): _____

Date: _____ Phone: _____

Photographer's Name (print): _____

Notification and News Releases

ABC of Oklahoma Excellence in Construction Award winners will be notified after the judging process. News releases will be held until after the actual awards ceremony takes place October 25, 2018. Until that time the winners agree to not make a press release.
